EDUCATION

Bachelor of computer engineering

2020 - 2025

SKILLS

Frontend: React, Next.js, React Native

Languages: JavaScript (ES6+), Python, Typescript

State Management: Redux Toolkit, Zustand

Data Fetching: TanStack Query (React Query) - Axios

Styling: CSS3, TailwindCSS, Radix UI

Backend: Node.js, Express.js, FastAPI

Databases: PostgreSQL, MongoDB

API Development: REST APIs, Authentication, File Handling

AI Integration: Whisper, PyTorch VAD, LLM APIs

Tools: Git, REST APIs, Vite/Webpack, Storybook

Practices: Agile/Scrum, Clean Architecture, Performance Optimization

MASOUME NADERI

Frontend-focused Full-Stack Developer

EXPERIENCES

IDEALWEEN

Aug 2025 - Present

MID-LEVEL FRONT-END DEVELOPER

- Led the end-to-end redesign and redevelopment of **IranSampler**, rebuilding the project with a focus on clean architecture and scalability.
- Developed and maintained multiple services within the **Isopoll** platform, delivering reusable and modular front-end solutions.
- Improved performance by reducing latency and optimizing rendering, achieving near 100% scores in Lighthouse metrics (performance, accessibility, best practices).

FERDOWSI CLOUD

Apr 2025 - Aug 2025

MID-LEVEL FRONT-END DEVELOPER

- Helped redesign and optimize **Ferdowsi Cloud's** main website, improving performance and responsive behavior across devices.
- Implemented **Lotus Insurance** platform.

FREELANCER

Des 2023 - Present

FULL-STACK & MOBILE DEVELOPER

- Developed a AI-powered voice processing system using Whisper-based speech-to-text pipelines and audio preprocessing techniques.
- Built **Gardima**, a cross-platform tourism app (React Native) for booking travel services.
- Developed **Coffee Connoisseur** (Next.js, Tailwind), focusing on performance and responsive UX.
- Implemented real-time data UI for the **Next Trader** market-pulse section.

NAZAR STUDIO

Sep 2022 - Des 2023

FRONT-END DEVELOPER - SCRUM MASTER

- Delivered key features for **Apwa CMS** and **Arfa Reservation** using React, Next.js, and TypeScript.
- Enhanced maintainability by restructuring legacy components and enforcing code standards.

BARCODE SOFTWARE AGENCY

Jun 2021 - Feb 2022

FRONT-END DEVELOPER - SCRUM MASTER

- Built **SGB**, a cryptocurrency platform with role-based dashboards (admin/trader), improving data visibility and user workflows.
